City College of Angeles (CCA) Research Agenda

A. Rationale of the Research Agenda

City College of Angeles (CCA) is committed to research as a tool for empowerment, community development, and evidence-based policymaking. The college recognizes research as transformative, enabling innovation, addressing local challenges, and uplifting lives.

Guided by its mission to serve as an agent of progress, CCA acts as the research arm of the local government, providing data-driven insights for policies, programs, and initiatives that benefit Angeles City and surrounding areas. Through impactful research, CCA strengthens governance, urban development, education, business, and social welfare, ensuring local decision-making is supported by rigorous scholarly inquiry.

Beyond government collaboration, CCA engages community stakeholders—including barangay leaders, small businesses, educators, and civil society organizations—to co-create solutions that improve quality of life. Through participatory and applied research, the college empowers individuals and groups with knowledge supporting sustainable economic growth, environmental stewardship, and inclusive social development.

The research agenda is strategically aligned with local and national priorities, addressing issues such as:

- Education innovation
- Economic resilience
- Health and well-being
- Cultural preservation
- Technological advancement

CCA builds research capacity among faculty and students, fosters interdisciplinary collaboration, and promotes knowledge dissemination via publications, conferences, and community extension projects.

Vision Statement: CCA reaffirms its commitment to scholarship with purpose—rooted in service, responsive to local needs, and instrumental in shaping a progressive, research-driven Angeles City.

B. Alignment with CCA's Vision, Mission, and Goals

CCA's research agenda aligns with the institution's Vision, Mission, and Core Values to advance its role as a thought leader and community partner.

B.1. Research as a Driver of Institutional Excellence

- CCA fosters innovation, critical inquiry, and evidence-based solutions for local and global challenges.
- Research strengthens education, industry, and governance in Metro Angeles.

- Faculty and students are empowered to generate knowledge that drives societal progress.
- Research initiatives cultivate excellence, resiliency, stewardship, and patrimony, producing graduates who are agents of change.

B.2. Research in Support of Institutional Objectives

Research directly supports CCA's institutional objectives:

- **Quality Education (Objectives 1 & 3):** Enhances curriculum, teaching innovations, and international benchmarking.
- **Continuous Improvement (Objective 2):** Promotes research-driven evaluation and innovation.
- **Community Engagement (Objectives 4 & 6):** Provides solutions addressing local government, industry, and community needs.
- **Cultural Preservation (Objective 7):** Emphasizes Kapampangan heritage, arts, and culture integration.

B.3. Embedding Core Values in Research

CCA's Core Values shape research priorities and methodologies:

- **Excellence:** Upholds rigorous academic standards producing globally competitive outputs.
- **Stewardship:** Prioritizes sustainability, social impact, and ethical responsibility.
- **Resiliency:** Turns challenges into opportunities for innovation and societal progress.
- **Patrimony:** Integrates studies on Kapampangan heritage and local traditions.

C. Alignment with CCA OVPREQA Vision, Mission, and Goals

The research agenda supports the Office of the Vice President for Research, Extension, and Quality Assurance (OVPREQA), ensuring alignment with institutional research, extension, and quality assurance priorities.

C.1. Alignment with OVPREQA's Goals

- **Research Excellence:** Promotes rigorous, ethical, and innovative research with interdisciplinary collaboration.
- **Community Engagement and Extension:** Develops initiatives addressing societal challenges and empowering communities.
- **Quality Assurance and Institutional Excellence:** Supports evidence-based decision-making, academic benchmarking, and continuous improvement.

- **Intellectual Property Management and Innovation:** Encourages ethical innovation and responsible commercialization of research outputs.

C.2. Integration of Core Values in Research

Research initiatives reflect OVPREQA's core values:

- **Excellence:** High-quality, globally competitive research.
- **Integrity:** Ethical practices, transparency, and accountability.
- **Collaboration:** Interdisciplinary partnerships for societal benefit.
- **Social Responsibility:** Research that promotes inclusivity and sustainable development.
- **Continuous Improvement:** Evidence-based growth and institutional development.

D. Alignment with United Nations Sustainable Development Goals (UN SDGs)

CCA aligns its research with the UN SDGs, fostering transformative solutions:

1. **No Poverty (SDG 1):** Poverty alleviation and livelihood development.
2. **Zero Hunger (SDG 2):** Food security, sustainable agriculture, and nutrition programs.
3. **Good Health and Well-being (SDG 3):** Public health, mental health, and healthcare accessibility.
4. **Quality Education (SDG 4):** Innovative teaching, curriculum development, and technology integration.
5. **Gender Equality (SDG 5):** Gender inclusivity and women empowerment initiatives.
6. **Clean Water and Sanitation (SDG 6):** Water conservation and sanitation improvement.
7. **Affordable and Clean Energy (SDG 7):** Renewable and energy-efficient solutions.
8. **Decent Work and Economic Growth (SDG 8):** Labor market, entrepreneurship, and MSME support.
9. **Industry, Innovation, and Infrastructure (SDG 9):** Technological innovation and smart city solutions.
10. **Reduced Inequalities (SDG 10):** Social equity and inclusive policy research.
11. **Sustainable Cities and Communities (SDG 11):** Urban planning, disaster risk reduction, and heritage conservation.
12. **Responsible Consumption and Production (SDG 12):** Sustainable business practices and consumer behavior studies.

13. **Climate Action (SDG 13):** Climate resilience, disaster preparedness, and ecological conservation.
14. **Life Below Water (SDG 14):** Marine conservation and sustainable fisheries.
15. **Life on Land (SDG 15):** Biodiversity conservation, reforestation, and land management.
16. **Peace, Justice, and Strong Institutions (SDG 16):** Governance, human rights, and conflict resolution.
17. **Partnerships for the Goals (SDG 17):** Collaboration with LGUs, industries, and international partners.

E. Alignment with National and Sectoral Research Agendas

CCA aligns its research with national priorities to support economic growth, social development, and technological advancement.

E.1. Alignment with DOST – Harmonized National Research and Development Agenda (HNRDA)

- **Basic Research:** Advances fundamental knowledge and scientific inquiry.
- **Health and Nutrition:** Addresses health disparities and community well-being.
- **Agriculture, Aquatic, and Natural Resources (AANR):** Supports sustainable agriculture and environmental conservation.
- **Industry, Energy, and Emerging Technology:** Promotes AI, digital transformation, and renewable energy.
- **Disaster Risk Reduction and Climate Change Adaptation (DRR-CCA):** Enhances resilience and disaster preparedness.

E.2. Alignment with NEDA – Philippine Development Plan (PDP)

- **Economic Transformation and Innovation:** Supports entrepreneurship and industrial development.
- **Human Capital Development:** Focuses on education, workforce readiness, and lifelong learning.
- **Resilient and Sustainable Communities:** Urban planning and sustainability research.
- **Evidence-Based Policymaking:** Evaluates policy effectiveness and supports governance improvements.

E.3. Alignment with CHED Research Agenda

- **Higher Education Quality:** Improves teaching, curriculum, and institutional quality assurance.

- **Priority Disciplines:** Focus on STEM, social sciences, business, and creative industries.
- **Internationalization:** Encourages global collaborations.
- **Community-Based Research:** Supports local communities and policy formulation.

E.4. Alignment with DTI – Inclusive Innovation Industrial Strategy (i3S)

- **Innovation and Digital Transformation:** Supports e-commerce, digital business, and smart technologies.
- **MSME Development:** Enhances business resilience, market access, and supply chain management.
- **Creative and Knowledge Economy:** Promotes intellectual property protection and innovation ecosystems.

E.5. Alignment with Other Stakeholders

- **Local Government Units (LGUs):** Supports local governance and community engagement.
- **Department of Environment and Natural Resources (DENR):** Environmental sustainability and climate action.
- **Department of Education (DepEd):** Enhances basic education through research.
- **Department of Tourism (DOT):** Promotes cultural heritage and sustainable tourism.
- **Private Sector and Industry Partners:** Ensures research is applied and relevant to industry needs.
